

A Company profile

Mohammed Jindran

"Why should you consider anyone who does not perfectly match the job criteria, given the availability of an emerging pool of well trained and experienced personnel who are waiting to contribute their skills for a competitive employment package?"

OVERSEAS LABOUR SUPPLY RECRUITMENT EXCELLENCE SINCE 1979.

The greatest asset of any organization is its people. That's why professional recruitment is of utmost importance. Recruiting the right people demands trained professionals with rich experience to analyze a "resume" and "read" a candidate during an interview.

Since its inception in 1979, Overseas Labour Supply (OLS) has championed the techniques of precise sourcing, screening, short listing and finally placing the right candidates matching the specific job requirements employers. It is this distinct advantage that has been instrumental in the placement of thousands of workers into various companies all over UAE during the last 27 years.

OLS operates out of its corporate offices in Sharjah and Dubai with testing and selection centers located in India, Pakistan, Bangladesh, Nepal, Lanka, Philippines, Thailand, Vietnam, Myanmar, Indonesia, China, Egypt, Jordan, Syria and Sudan.

The Successful performance of OLS over 27 years is reflected in the long list of valued clients that continue using our services with sheer confidence

that they bestow on us right from the foundation to the finishing stages of every project. "It is this very confidence of our clients that makes us proud to be... **"THE PEOPLE BEHIND AN ORGANIZATION"** Says Mr. Mohammed Jindran, Managing Director of Overseas Labour Supply. We believe our continued success stands on firm foundations of qualitative commitment to our clients. In keeping with the UAE's race for excellence in all areas of development, Mr. Jindran insists on a 'zero tolerance' policy with regards to the recruitment of professional and skilled workers for his clients. "Why should you consider anyone who does not perfectly match the job criteria, given the availability of an emerging pool of well trained and experienced personnel who are waiting to contribute their skills for a competitive employment package?" he asks.

With the recent classifications of A, B, and C categories issued to various companies by the Labour Ministry, OLS works alongside its clients to diversify the sourcing of its workers from various nationalities in order to maintain their 'A' classification and economize on the ministry fees payable for the issuance of visas. In the construction sector OLS recommends hiring a suitable mixed bag of nationalities such as Indian, Pakistani, Bangladeshi, Vietnamese and Thai workers which are highly skilled in their trades. As a solid proof of our commitment, we offer a Bank Guarantee for every recruitment assignment that we finalize with our clients. We undertake a six-month guarantee to replace an employee, with no additional fees and all expenses covered by Overseas Labour Supply, should a recruit be identified as unfit or not suitable for the position.

We believe in paying Personal Attention to all our clients and seek to foster long lasting relationships that are mutually conducive.

OLS is proud to be associated with renowned construction companies which have carried out prestigious projects all over UAE, particular in key development areas such as the Palm Islands, Dubai Marina, Jumeirah Lake Towers, Dubai Airport etc. where OLS recruits are involved from the start of the projects right until finishing stage.
